1. The following is an examiner's statement of reasons for allowance: applicant's remarks filed February 16, 2006 were well taken. The scope of the claimed automatic means is now seen to be outside that of the automatic means of Fisk in that the means of Fisk must be more than just capable of automatically adjusting the windshield in response to stimulus in the form of a signal, but must be responsive to specific stimulus, such as speed, as with the instant automatic control system, as noted by applicant. Further with respect to the 112 first paragraph rejection, such rejection is hereby withdrawn as it is agreed that conventional technology not requiring undue experimentation is being disclosed.

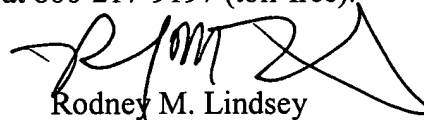

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney M. Lindsey whose telephone number is (571) 272-4989. The examiner can normally be reached on M-F (8:30-5:00).
